

# Teams Admin Training Resources and Guides

**MS Teams provides extensive documentation for IT/Teams Admins.**

IT and Teams Admins can view instructions and **comprehensive training** resources for managing their Teams Tenant 24 | 7.

The screenshot shows the Microsoft Learn website. The main heading is "Introduction to Microsoft Teams for admins". Below the heading, it says "Article • 10/26/2023 • 25 contributors • Applies to: Microsoft Teams". There is a "Feedback" link. Under "In this article", there are links for "Teams architecture", "Managing Teams", "Teamwork", and "Related topics". A paragraph of text reads: "If you're the admin for Microsoft Teams in your organization, you're in the right place. When you're ready to get going with Teams, start with How to roll out Teams and Set up secure collaboration with Microsoft 365 and Microsoft Teams." Below this is a video player with the title "Welcome to Teams for admins" and a play button. At the bottom, there is a "Download PDF" link and a URL: "https://learn.microsoft.com/en-us/microsoftteams/teams-overview".

Click this link to access the MS Teams Documentation and Training in your browser:
