**MOMENTUM**

Meraki MS - Switches

The Cisco Meraki MS is the industry's first line of cloud managed access and aggregation switches, combining the benefits of cloud-based centralized management with a powerful, reliable access platform. With cloud management, thousands of switch ports can be configured and monitored instantly, over the web. Provision remote sites without on-site IT, deploy network-wide configuration changes, and easily manage campus and distributed networks without training or dedicated staff.
